

*Simply the Best!*

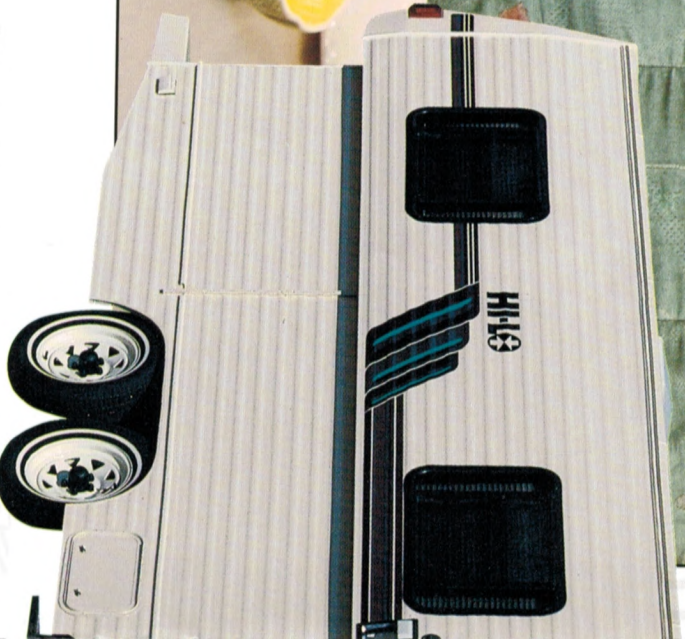

THE BEST OF BOTH WORLDS...LOW PROFILE TOWING WITH FULL SIZE COMFORT

Hi-Lo's comfortable couch features no-sag springs and luxurious tufted nylon velvet that's easy to care for. It makes a full-size 54" bed. Color coordinated drapes and miniblinds offer beauty and privacy, and a large pullout storage area illustrates Hi-Lo's attention to detail.

# Full Size Comfort

One look inside a Hi-Lo trailer and you'll not realize it's a telescoping travel trailer. Our redesigned interiors feature plush velvet fabrics, soft yet durable couches, solid oak cabinet doors and finely detailed counter tops trimmed in hand-finished molding. Beauty and practicality go hand in hand, with plush, stain resistant carpet and fashionable vinyl wallcoverings that provide elegance and durability. Hi-Lo truly stands better than any travel trailer on the market.

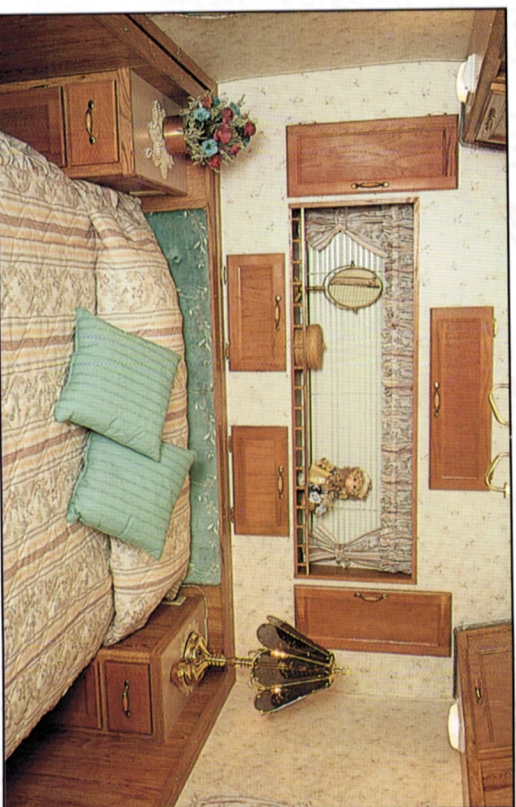

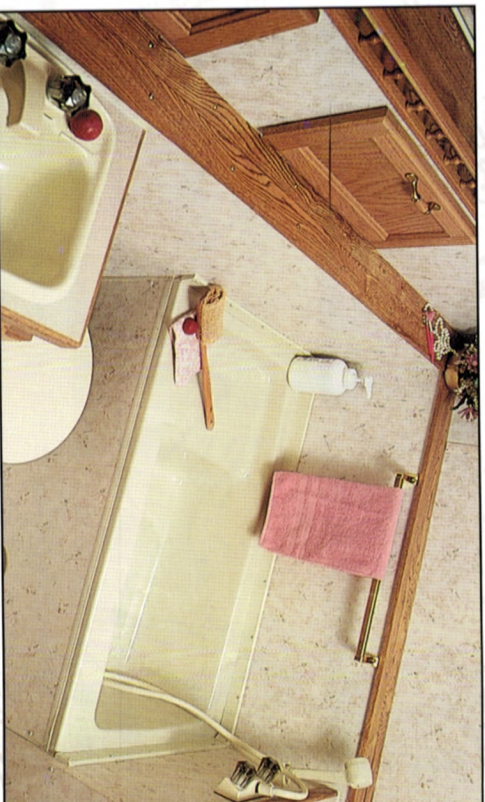

When Hi-Lo is "up for living" it rivals any other travel trailer for features, beauty and comfort. When Hi-Lo is "down for travel" it surpasses any travel trailer in safety, easy of towing and economy. That's real comfort...beauty, safety and economy all put-together just for you by Hi-Lo craftsmanship.

This front kitchen model features a free-standing solid oak dropleaf table with two folding solid oak chairs. Our sleek modern kitchens offer step-saving designs and the finest equipment.

Spacious bathrooms provide complete accommodations for the most demanding traveler. Features include attractive and long-lasting vinyl flooring and the same well-planned design found throughout our interiors. Our 26-foot model's bathroom is shown at right.

Large bedrooms with walk-around beds include easy access storage below and storage cabinets above, and plenty of windows to welcome maximum light and ventilation. Fine details are evident throughout, with custom lighting designed especially for Hi-Lo.

## *Low Profile Towing*

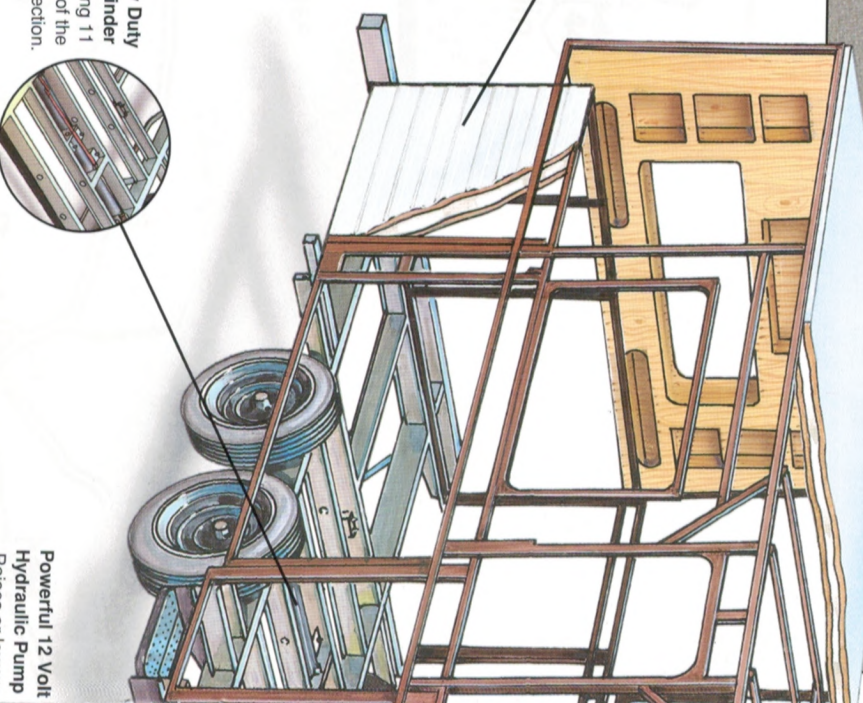

With the flip of a switch, your Hi-Lo trailer lowers a full 31" in just 12 seconds to its low aerodynamic profile. Its design reduces sway and buffering caused by passing large vehicles and crosswinds, which means much greater stability. Hi-Lo's low center of gravity and aerodynamic design makes it the safest and easiest travel trailer to tow. Our renowned low travel profile reduces air drag up to 70%, which can mean a 64% savings on fuel costs, making Hi-Lo the most fuel-efficient travel trailer on the market. Trailer Life, the most respected RV magazine, may have said it best when they called Hi-Lo "The best of both worlds...low profile towing with full sized livability". In a recent test, Trailer Life stated "Hi-Lo is a dream to tow".

### **Laminated Ceiling & Sidewall**

Hi-LO's construction is a laminated sandwich of aluminum roof and fiberglass side walls, both with backer board, polystyrene foam, tubular steel and plywood interior paneling.

### **Heavy Duty Hydraulic Cylinder**

Capable of lifting 11 times the weight of the trailer's top section.

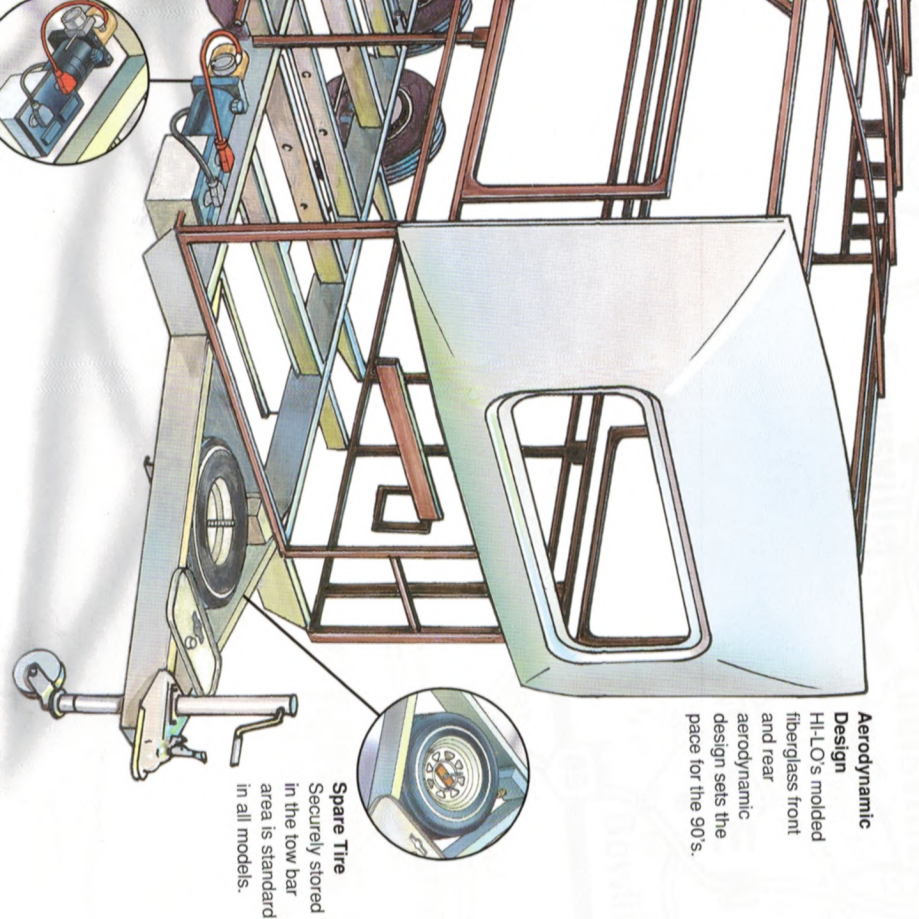

**Powerful 12 Volt Hydraulic Pump**  
Raises or lowers Hi-LO's upper section in just 12 seconds.

# Safety, Durability, Value

Just like the most expensive motor homes, Hi-Lo's are built with a tubular steel frame and laminated construction for three reasons: Safety, durability and long-term value. Hi-Lo is the only travel trailer to use similar construction. Our tough frame construction consists of a tubular steel ribs cage on both top and bottom. Everything is jig-assembled for precision and carefully welded for maximum strength.

Hi-Lo's profile allows you to securely store your trailer in the garage, which saves storage fees and allows you to comply with zoning laws. Automatic hydraulic systems have endured more than 20 years of use, and child-resistant bar locking system secures the lifting mechanism while in the "Hi" (living) position.

This rear bumper storage compartment and basement-access locking compartments provide plenty of secured storage space. They're standard in all models. Every space is used in the interior, as well, with easy access storage compartments found throughout each Hi-Lo trailer. Innovative design is just one more feature that sets Hi-Lo apart from the competition.

Wide-track and electronically balanced designer sports wheels and tires add an extra measure of beauty, stability and ride comfort to each Hi-Lo trailer. The standard collision avoidance light provides that extra measure of towing safety by reducing rear-end collisions by 22% (NHTSA).

(\*)Not including roof projections

**GVWR**  
Gross Vehicle Weight Rating: the value specified by the manufacturer as the maximum loaded weight of a single vehicle. (NHTSA)

**Unloaded Vehicle Weight**  
The weight of a vehicle with maximum capacity of all fluids necessary for operation of the vehicle, but without cargo, occupants or accessories that are ordinarily removed from the vehicle when it is not in use (NHTSA). UVW shown is for a coach with no factory or dealer installed options.

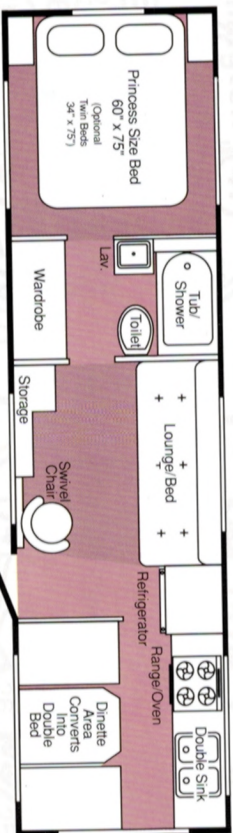

**Additional Allowable Weight**  
The total allowed weight of passengers, cargo, options and accessories. It is the difference between the gross vehicle weight rating and the unloaded vehicle weight.

Hi-Lo designed its recreational vehicle to provide a variety of potential uses for its customers. Each unit features the optimum storage, fluid, seating and sleeping capacities. While the customer enjoys this potential, he also has the responsibility to select the proper combinations of loads without exceeding the chassis weight capabilities.

# Hi-Lo: Your Best Buy

Everything you've always wanted in full size comfort, with the advantage of lasting value, safety and the highest fuel efficiency ratings of any travel trailer on the market. Hi-Lo builds in quality throughout each step of the manufacturing process. Exclusive features that mean added economy, safety, durability and convenience we can comfortably make the claim that Hi-Lo is "the travel trailer that has it all". It's well-worth the initial investment because Hi-Lo gives you higher resale value than other trailers in the same price category. Compare Hi-Lo with any other trailer for beauty, comfort, quality, durability, towability and, most importantly, safety—and you'll see that Hi-Lo presents the best value in recreational vehicles.

TEST-TOW THE WORLD'S MOST FUEL EFFICIENT TRAVEL TRAILER AT YOUR AUTHORIZED HI-LO DEALER TODAY.

- Value now and when you trade

### HI-LO FUEL EFFICIENCY TEST TOW

**HI-LO UP TO 64% BETTER**

Hi-Lo proved it's the most efficient travel trailer  
Conducted by: **TRC** TRANSPORTATION RESEARCH OF OHIO

### 6 Yr. LIMITED WARRANTY ON LIFTING SYSTEM

Hi-Lo warrants to the original purchaser that it will replace (through its authorized service center) any part of your Hi-Lo hydraulic lifting system (excluding the battery) which becomes broken or inoperative due to defects in material or workmanship within six years from date of original purchase.

In addition, Hi-Lo warrants that it will repair or replace (through its authorized service center) any part of your Hi-Lo travel trailer found defective due to defects in material or workmanship within 12 months from date of original purchase. (Components such as tires, running gear, power converter, battery, plumbing & electrical fixtures, refrigerator, range, etc. are subject to separate warranties issued by other manufacturers.)

Ask your dealer for complete details of Hi-Lo warranties.

Note: All standard and optional features are available at the time of printing. Hi-Lo, however, reserves the right to improve and/or modify the product, which may change the specifications, models and feature availability. Check with your local Hi-Lo dealer for updated information.
